

DRIVE BUSINESS GROWTH WITH CUSTOMIZED STAFFING SOLUTIONS

OUR STORY

Nearly 30 years ago, Staff Management | SMX was founded with the goal of transforming the staffing industry from traditional branch-based models to a more customized and embedded onsite approach. As pioneers in this approach, our founders implemented the industry's first dedicated onsite staffing model at a food and confection manufacturing facility in Illinois. While we've since expanded our portfolio to include many Fortune 500 and mid-size businesses, we are proud to say that our first client is still with us today.

“The Staff Management | SMX team is extremely collaborative and passionate about customer service, training and performance management. They are truly partners with the business.”

Value Stream Manager, Major Food and Confection Company

OUR SOLUTIONS

In addition to our Outsourced Workforce Management (OWM) onsite staffing solution that provides total management of your contingent workforce, we also offer managed and insourced solutions and Recruitment and Placement Solutions (RPS) for your semi- and highly skilled contract, temp-to-hire and direct hire needs.

THE TRUEBLUE BENEFIT

TrueBlue is recognized by Staffing Industry Analysts as the largest US industrial staffing firm, the 9th largest US staffing firm overall and the 14th largest global staffing firm. By partnering with Staff Management | SMX, you gain access to the full suite of services provided by TrueBlue. Whether you need on-demand labor, high-volume staffing, MSP, onsite management or outsourced services for your contingent workforce, we have the resources and expertise to create a customized, end-to-end solution for your operation.

In 2017, Staff Management | SMX was among less than two percent of staffing agencies in the US named to Inavero's Best of Staffing® Client List.

In 2013, Staff Management | SMX was recognized with the Staffing Innovator Award for establishing the industry's first dedicated onsite staffing model.

In 2013, Staff Management | SMX received a TekTonic award for our proprietary workforce management system StaffTrack.
