

WHY WE'RE A DIFFERENT TYPE OF STAFFING COMPANY

Like many industries, the field of staffing companies is vast and often confusing. The perfect fit in terms of staffing often comes down to their model.

WHAT IS ONSITE?

While many companies may claim their model is tailored to you, ours actually is. We use an onsite staffing model to build a custom staffing solution for each of our clients. We work exclusively for you, literally on site, in your building or warehouse floor.

QUICK TO SCALE

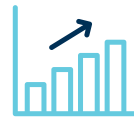

What if your priorities change? What if new challenges emerge because of the economy or fluctuating supply chains and demand? Not a problem. We're right there with you every single day to help work through whatever arises.

A CUSTOM SOLUTION FOR YOUR NEEDS

No operation quite like yours. So, a cookie cutter staffing solution won't work for you or it will create more problems than it solves. That's why we tailor our proven staffing solutions to be the perfect fit for your market, facility and workforce needs.

YOU AREN'T COMPETING FOR THE BEST PEOPLE

You shouldn't be competing for the best people with every other business in town. Unlike traditional staffing providers who assign multiple clients to a single management team, our onsite teams are focused solely on you and dedicated to your success. We're focused on finding you (and only you) the top talent in your area.

RECRUITMENT PROS

At Staff Management, we use precision recruiting tactics that combine grassroots and targeted digital strategies to find the best workers for your contingent labor pool and get them to work right when you need them. In short, this is what we do every day and we're good at what we do.

THE BEST TECHNOLOGY IN THE BUSINESS

Our proprietary hiring and workforce management tool, Stafftrack brings in the right people at the right time. There is nothing else quite like it. It can help with everything from providing an exceptional candidate experience with mobile-friendly applications to real-time reporting tools that manage fill rates and worker flows. Stafftrack ensures your teams always have the perfect workforce in place.

24/7 SUPPORT

Ever dreamed of having a service team to handle all the administrative tasks of having employees? Our centralized services team works around the clock to support our onsite teams and your staffing program. They handle the day-to-day administrative tasks like E-Verify, background and drug screening and client-specific onboarding requirements, (so you don't have to).
